

## Monkey Face Cliff Walk

**30 mins**

**Hard track**

**406 m Return**

**↑ 65m**

This short but steep walk to the base of an attractive cliff is worthwhile. The walk travels through open forest with gum trees and Xanthorrhoea trees to eventually follow timber steps steeply to the base of the Monkey Face cliff. This cliff is used by rock climbers and abseiling parties, so be aware that people may be above you. Spend some time exploring the base of cliff before returning the same way.

Watagans National Park

### **Are you ready to have fun?**

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walks overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

**Getting there** Traveling by car is the only practical way to get to Bangalow camping ground (gps: -33.0165, 151.4256). Car: There is free parking available.

This is a return, so you will finish back at the start.

Find up to date and more information including; travel directions, weather, park closures and walker feedback at <http://wild.tl/mfcw>

#### **0 | Bangalow camping ground**

The Bangalow campsite, beside Bangalow Road is within the Watagans National Park and is a small, quiet spot to camp amongst native bush. The site has a number of picnic tables, a barbeque, and a toilet.

#### **0 | Bangalow camping ground**

*(200 m 10 mins)* From Bangalow Camping Ground (on Bangalow Rd), this walk follows the track up the moderately steep hill (directly opposite the camp ground). The track is followed for about 100m, to find a small flat area with a large rock. The track then continues steeply uphill with timber steps for about 110m, until coming to an indistinct three-way intersection at the base of Monkey Face cliff.

#### **0.2 | Base of Monkey Face Cliff**

This large and extensive cliff line overlooks the Gap Creek Valley. This sandstone cliff is used by rock climbing and abseiling parties, so be aware that people may be above you. It is possible to explore around the base of this cliff and find attractive rock formations, including caves.
