

## Seymour Pond

**30 mins**

**Easy track**

2

**890 m Return**

**↑ 45m**

This short walk takes you from the Katandra Rd Picnic Area to Seymour Pond. The pond was made to support a farm that was once in the area, and now the pond support many water birds. There is a simple picnic area and plenty of shady spots at the pond, making a nice place to sit and enjoy the birds. These notes also describe two side trips to some other interesting spots near the pond.

Katandra Reserve

### Are you ready to have fun?

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walks overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

**Getting there** You can get to Katandra Rd picnic area (gps: -33.4146, 151.396) by car or bus. Car: There is free parking available.

This is a return, so you will finish back at the start.

Find up to date and more information including; travel directions, weather, park closures and walker feedback at <http://wild.tl/sp>

#### 0 | Katandra Rd Picnic Area

The Katandra Road Picnic Area is found at the end of a short driveway (signposted at the intersection of Katandra Rd and Croton Ave, Holgate). The picnic area is in front of the ranger's residence and is open from 7am to 6pm daily. The picnic area provides some toilets, garbage bins, two picnic tables, parking and an information sign.

#### 0 | Katandra Rd picnic area

(140 m 3 mins) From the picnic area, this walk follows the 'Seymour Pond' and 'Waterman Walk' signs north-east along the clear track. The track soon heads down a series of steps and, shortly after turning right (at a locked gate), this walk comes to a three-way intersection marked with two blue/white arrows on a post.

#### 0.14 | Int of Waterman walk and Katandra Rd track

(300 m 8 mins) Turn left: From the intersection, this walk follows the upper arrow down the hill, keeping the fence and house to the right. The track heads down the hill then steps down into a palm-filled valley. Here, the walk climbs some steps and passes the 'Commemorating 10 years of bushcaring in Katandra Reserve' plaque, then bends right and around a sharp left-hand bend and past the number '5' post (and old Wombat Hole). The track continues around the gully to cross a few small bridges and come to a picnic area and a 'Seymour Pond' sign.

#### 0.45 | Seymour Pond

Seymour Pond is medium-sized water body in Katandra Reserve. The pond is fed by a spring coming from the cliffs at the top of the reserve. The small creek was dammed in the early 1900's to provide water for a farm on the south side (growing vegetables). The pond is home to water birds, large lizards and other wildlife. The council does not allow swimming in the pond, helping to maintain the ecosystem that now relies on this pond. There are a few spots beside the pond where you can enjoy the cool climate and the visiting birds.

#### 0.45 | Seymour Pond Picnic Area

The Seymour Pond Picnic Area is found on the dam wall at the eastern end of Seymour Pond in Katandra Reserve. The picnic area provides a couple of picnic tables and a garbage bin. The picnic area is set in a lovely naturally shaded area in view of the Seymour Pond and beside

Watermans and Toomeys walks.

#### 0.45 | Optional sidetrip to Strangler Fig Tube

(130 m 2 mins) Veer right: From the picnic area, this walk heads across the dam wall, keeping the water on the left while passing the two picnic tables. The walk then crosses a timber bridge and comes to a signposted three-way intersection with 'Toomey' and 'Waterman' walks.

Continue straight: From the intersection, this walk follows the 'Toomey Walk' sign along the boardwalk, away from the pond. Soon the walk follows the track along the gully then follows the timber steps as they bend right and head up to the number '4' post, next to the Strangler Fig tube. At the end of this side trip, retrace your steps back to the main walk then Turn around.

#### 0.45 | Strangler Fig Tube

This Strangler Fig Tube is found beside Toomey Walk, just north of Seymour Pond. The scientific name of the tree is *Ficus obliqua* and it is listed on the Significant Tree Register. This Small-leaved Fig has grown around a large fallen log. The log has long-since rotted away, leaving a knotted tubular structure. Strangler Figs often grow from seeds dropped by birds. The seeds may fall on logs or rocks and the roots will make their way to the ground (to provided water, nutrients and a firm anchor), whilst the rest of the tree grows upwards for light.

[More info.](#)

#### 0.45 | Optional sidetrip to Waterman View

(110 m 2 mins) Turn sharp left: From the picnic tables, this walk heads past the 'Seymour Pond' sign (following the right-hand 'Waterman walk' arrow) and follows the track, keeping the pond close by on the right. The track soon leads to a viewing platform with long bench seats - Waterman view. At the end of this side trip, retrace your steps back to the main walk then Turn left.

#### 0.45 | Waterman View

Waterman view (informally named) is a viewing point at the western end of Seymour Pond. The platform has a couple of long bench seats. A timber platform on the water's edge means that visitors can get right up near the water. Signs here remind visitors that swimming is not allowed. This is a great spot to enjoy the birds and other life around the pond.
